Used to be the Jones family motto - but no more.

BEFORE

# Conquer the dysfunction!

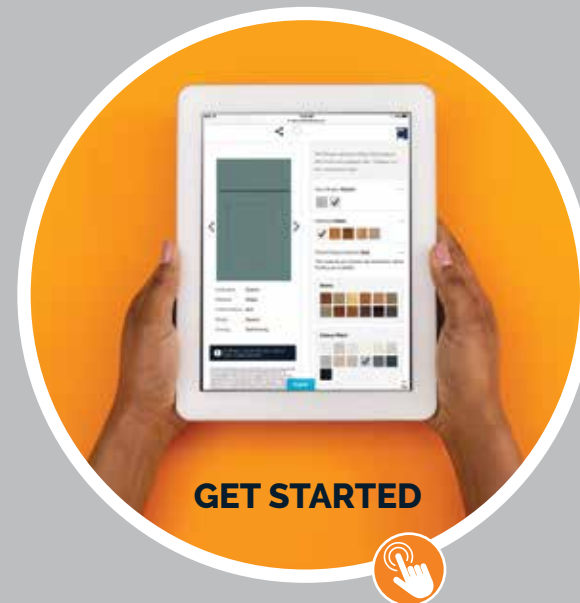

Just starting your kitchen renovation journey?

Creating your dream kitchen is exciting yet can be overwhelming at the same time with all the decisions you need to make. It would really help to have a hand to hold through the process, right? Well, good news - the professional Kitchen Designers at The Home Depot will be with you every step of the way.

Cooking as a family every night in this tiny dated kitchen meant everyone was under foot and the fridge door created a barrier. Their reno journey started by knocking down the dining room wall to create a large U-shaped kitchen with an island that doubles as a farmhouse table. ▲

Knowing how you want your kitchen to function is just as important as how you want it to look. The key is identifying what makes the most sense for the way you cook, gather and live in your space. Thomasville's extensive line of Performa™ organizational solutions is designed to meet your personal lifestyle needs.

# Get inspired.

Thomasville offers two cabinet collections to choose from the **Nouveau**Collection and the **Classic**Collection.

FAMILY

# Storage Hero.

The trend towards bulk shopping is practical for today's busy families in order to minimize time and money spent in grocery stores. If you buy in volume, then the Super Base Cabinet is for you! Every square inch of this cabinet is utilized - even on the back of each door. Thomasville's Super Base Cabinet is offered in eight different configurations. Ask your Home Depot Designer which one will best suit your storage needs.

## Did you know?

In a recent remodeling survey, 48% of renovators interviewed stated they regret not including all of the storage organization that they needed.

## ClassicCollection

Ever notice how every gathering seems to end up in the kitchen? Well if you enjoy entertaining then you should consider integrating one of the many amazing cabinet features that Thomasville offers making serving food and beverage so easy.

- Become your own Barista with this clever K-cup organizer! Finding your perfect latte or tea has never been easier - or more fun!

ENTERTAINING

6 WALL END DOUBLE DOOR

1 CUSTOM COFFEE BAR

- This custom coffee bar keeps your espresso maker easily accessible yet concealed while not in use, saving you valuable counter space.

- Need extra dishes for your guests? Keep the conversation going from the dining room table as you grab them with ease from the side door.

# Clean-up zone.

CLEANING

12 SINK CAB-MAT

13 DOOR SHELF

CLEANING CADDY

- Protect both your sink cabinet and floor with the Cab-Mat. This grooved rubberized mat is a must-have to catch any drips or spills.

Keep your cleaning products tucked away with the door shelf or cleaning caddy.

The cleaning caddy glides out and is removable.

TECHNOLOGY

# Tech Smart.

- Protect important documents from loss or theft with a locked drawer. No need for a code or key. Entry is accessed by your finger print. Perfect for your kitchen or home office.

- You can never have enough plugs! This power pod pops up with the touch of a finger to charge all of your devices. Simply push down to conceal when not in use.

Cradle your digital cook book with this under-mount tablet holder.

 **4** PANTRY WITH ROLL-OUT SHELVES

▲ Bring your large pantry items directly to you with roll-out shelves. Each shelf rolls out for complete visibility, allowing you to take stock of your pantry with just a glance.

 UTILITY POT & PAN PULL-OUT PANTRY

▲ Chef inspired - this is vertical storage at its best! No more bending down to find the matching pot lid with this stylish and functional utility pot & pan pull-out.

We've all been there. Struggling to find our cheese knife in the back of the cutlery drawer. Well, the struggle is over with this beautiful tiered cutlery drawer. Everyday cutlery can be placed on the top tier while more specialty items (like that cheese knife) can be stored below.

▶ Tiered drawers range from 12" to 36" wide!

 **10** TIERED CUTLERY DRAWER

# Solutions for every room.

▶ Dedicated waste bin storage is essential in every kitchen renovation, but is also useful in other rooms such as the bathroom, laundry room and office.

▶ Thomasville has unique Performa™ organizational solutions designed for every room of your home. Imagine your bathroom essentials secretly stored away behind the vanity mirror - magic!
