### The following products are affected:

Product	UPC
Instantbond Activator (200 mL)	776541200505
Instantbond Activator (400 mL)	776541400103

## Issue

The recalled products do not meet the labelling requirements of the *Consumer Chemicals and Containers Regulations, 2001* under the *Canada Consumer Product Safety Act*.

The lack of appropriate hazard labelling information could result in unintentional exposure to the product and lead to serious illness, injury or death.

As of July 5, 2023, the company has received no reports of incidents or injuries in Canada.

## What you should do

**Consumers should immediately stop using the recalled Instantbond Activator and dispose of the products according to local municipal hazardous waste requirements.**
