

Husqvarna Announces Voluntary Recall of Certain Poulan Pro Lawn Tractors

Hazard: The fuel line in the identified tractors was not routed behind the tank guard which could allow the fuel line to contact and rub against the transmission belt. If this occurs, fuel could leak from the fuel line and pose a risk of fire.. There are no reports of injury.

The affected models were sold between March 2015 to January 2017, and are listed in the chart below:

Brand	Product Number Code	Model	Serial Number Range
Poulan Pro	960480092	PP20VA46	120915D001011-120716D001655
Poulan Pro	960480076	PB20A46YT	022615A001311-030315A001500

Please immediately stop using your tractor and contact the nearest Husqvarna dealer for a free repair. To find the nearest servicing dealer, visit www.Poulanpro.com and click on the “Dealer Locator” or “Service Locator” tab, or call 1-877-257-6921.

If you have any questions please call toll free at:
