

IMPORTANT RECALL NOTICE

Santevia Water Systems recalls PureEasy Shower Filter

Santevia Water Systems is recalling the **Santevia Shower Filter** made by PureEasy bearing LOT #003-19 or LOT #003-20 sold between January 2018 and June 2018.

Manufacturing changes made to this product caused the seam of the shower filter to detach under certain water conditions. This could cause the shell of the shower filter to unexpectedly separate releasing the mineral contents into the eyes.

To ensure the safety of all our consumers, Santevia Water Systems will replace all shower filters from Lot #003-19 or #003-20 with a completely re-designed model.

Consumers who have purchased product Lot #003-19 or #003-20 (as indicated on the bottom of the box) between January 2018 – June 2018, should immediately discontinue use of the product. They should return the product to The Home Depot for a full refund, or directly e-mail help@santevia.com for a replacement with an improved Santevia Shower Filter (picture below).

PRODUCT RECALLED LOT# 003-19, 003-20 (Jan-Jun 2018)

RE-DESIGNED MODEL
